Problem resolution

ABOUT ME

I am a full-stack software engineer with experience in frontend and backend with technologies such as HTML/CSS, NodeJS, Java, C++, C#, React, Angular, SvelteKit, Typescript and relational and non-relational database management.

ACADEMIC EXPERIENCE

E-COMMERCE INTEGRATED WITH PAYPAL ON AZURE
January 2023 - May 2023
- Addressed the need for a secure and functional e-commerce platform by integrating PayPal for seamless product transactions.
- Solved communication issues between different layers and external APIs through a RESTful backend server, ensuring smooth interaction.

TODOLIST
May 2023 - August 2023
- Development of a comprehensive Todo List web application using SvelteKit, MongoDB, HTML/CSS, and Typescript, enabling users to create and manage task lists seamlessly.
- Implementation of a secure backend API for user registration and login processes, prioritizing user data security.

QUITSMOKE
2020 - Present
- Contribution to the development of Quitsmoke, a collaborative platform aiding smoking cessation during university studies.
- Integration of features such as a .zapier chatbot for guidance, an achievement-based system rewarding users, and event subscriptions for community support.
